Halloween Monster Dice

What to do:

- 1) Print a set of cube out for each group of students.
- 2) Ask your students to carefully cut out the net. Remind them not to cut off the stripy tabs, otherwise the cube will be tricky to glue together!
- 3) Assemble the cubes with glue.
- 4) Ask your students to take it in turns to roll both dice. They will then each have to draw a monster based on what the 2 faces show e.g. a 6 legged creature with 4 ears, 1 head and 3 eyes!
