Languagenut School Competitions!

As well as our very popular worldwide Languagenut competitions, schools can now set up their own contests just for their students!

Quick start video to setting a competition: How to Create a School Competition

Step 1: Go to the admin area and click on **Competitions and Live.** Then select "Go to Competitions".

School Competitions! 🙎	Languagenut Live! 🔸
School Competitions are a great way to get your students to complete activities while competing against eachother for cool prices as an extra motivation. • Any Languagenut activities completed by students during the competition window will go towards their overall total • Students should be encouraged to complete activities across a range of skills in order to gain points • Competition access: 1.Students must only access the competition through their own account & 2. Students must not share their log-in details to gain more points • Once a student has completed an activity three times, they will no longer be able to earn points for that activity.	Languagenut Live is an exciting new feature where students can compete against each other in real time, providing engaging and motivating retrieval practice for listening, reading and writing skills. • Run weekly live class competitions • Set up Live events in just a few clicks so students are notified to join the game • Assess student understanding through fun plenary quizzes with instant feedback • Incentivise your students by linking to your school's reward system
