#### Step 6:

The platform will highlight where it identifies existing profiles already on the account.

Use the **add existing student** function, as this will allow students to carry over their previous username and password, as well as their scores and assignment history. You can choose to **make new student**, but this will generate new log in details for those students.

# Step 11:

Your class has now been created! You will see a pop-up asking you to download student logins. Click "Yes" for a handy, PDF printout.

#### Step 12:

To delete old classes, go back to the "Classes" tab in the admin area and click the bin icon to delete a class. **Deleting a class will not delete the student profiles**, assignments, or teachers assigned to that class. Please be aware that deleted classes **cannot be restored**.
