HOW TO PRACTICE EFFECTIVELY

Little and often

10 minutes a day beats last-minute cramming. Aim to log in every day this week.

Learn together

Practice with a friend, try Languagegenut Noughts and Crosses, or join a live class game.

Learn from mistakes

Mistakes help you improve. Practice first, then use quizzes to check your progress.

Keep revisiting

Go back to familiar vocabulary and redo activities to help it stick.

Use your voice

Try speaking activities to improve pronunciation and confidence.
